

Bachelor of Science in Business
Massachusetts Program Disclosure

COST OF PROGRAM:

University Tuition & Fees

\$54,560

University of Phoenix does not provide on-campus room and board or off-campus housing assistance at any of its locations. Estimated cost for Room/Board/Transportation for one academic year is \$9,700. The University Tuition and Charges shown on this Disclosure Form are based on the date you receive this form. The University reserves the right to adjust tuition and fees.

Special Tuition Rates

The University also provides special tuition rates for the following populations of students.

- x Alumni: All alumni students who are applying to a new University of Phoenix bachelor program; who have previously completed a degree program with University of Phoenix; whose account with the University is in good standing; and who didn't earn the pre-6 (wh//i.3 (cou)s (wh// dhe pre-g5.7 a (cou)s (wh// an he

GRADUATION RATE:

38% of students attending this program graduated during the last two calendar years for which data is available.

940 CMR 31.03 defines graduation rate as the number of students who received certificates, diplomas, or degrees in the program during the latest two calendar years, divided by the number of students who enrolled in the program during the latest two calendar years. This required definition may result in a graduation rate greater than 100% when the number of students who enrolled in the program during the time period is lower than the number of students receiving certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Similarly, the required definition may result in other disproportionately high graduation rates in the event that the number of students who enroll during the time period is less than the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. Alternatively, the required definition may result in disproportionately low graduation rates in the event that the number of students who enroll during the time period exceeds the total number of students in the program who are eligible to receive certificates, diplomas, or degrees during the time period because the required definition does not consider the total enrollment of the program over the time period. A Graduation Rate of "N/A" indicates that there were no students who received certificates, diplomas, or degrees in the program during the latest two calendar years and no students who enrolled in the program during the latest two calendar years.

GRADUATION TIME:

The average student attending this program graduates in 25 months.

940 CMR 31.03 defines graduation time as the median duration of attendance in months, rounded to the nearest month, of all students who obtained a certificate, diploma, or degree from a program during the last two calendar years. A Graduation Time of "N/A" indicates that there were no students who obtained a certificate, diploma, or degree from a program during the last two calendar years.

YOUR LOAN DEBT:

You must repay money that you borrow as student loans to pay for this program, including interest. You must repay any portion of the money you borrow to pay for this program, even if you fail to complete or drop out of the program. Failure to repay student loans is likely to have a serious negative effect on your credit, future earnings, and your ability to obtain future student loans.

PLACEMENT RATES:

Graduate Placement Rate: 14% of graduates during 2022-2023 obtained full-time, non-temporary jobs in their field of study.

Total Placement Rate: 5% of students that enrolled in the program during 2022-2023 obtained full-time, non-temporary jobs in their field of study.

Employment statistics substantiating these placement rates are available for inspection on request. The University collected this information via survey from students graduating during 2022 and 2023. The University notes that despite reasonable efforts taken to gather employment data from graduates, many graduates do not respond to the survey. The overall response rate of Massachusetts graduates across all University of Phoenix programs to the survey was 63%.

For purposes of computing the graduate placement rate, only graduates who affirmatively responded to the survey and indicated that they obtained full-time (at least 32 hours per week), non-temporary employment in the field of study are counted as employed.

A Graduate Placement Rate and Total Placement Rate of "NA" indicates that a program had no graduates in 2022 or 2023. A Total Placement Rate of NULL indicates that the graduation rate, as computed based on the definition of graduation rate found in 940 CMR 31.03, was "100+"%.

940 CMR 31.03 defines "Graduate Placement Rate" as the number of students obtaining full time (at least 32 hours per week) and non-temporary employment in the field of study during the latest two calendar years for which the school has obtained verification, divided by the number of all students graduating from the program during the latest two calendar years.

"Employment in the Field of Study" is defined as employment in the job specified in the name of the program or certificate, diploma, or degree conferred by a school upon graduation from the program, or the reasonable equivalent thereof, such as those set forth in the "Sample of reported job titles" and "Related Occupations" listed in the Summary Report for each Standard Occupational Classification (SOC) code obtained by entering the program's Classification of Instructional Program (CIP) code on O*NET crosswalk, <http://onetonline.org/crosswalk/CIP>. The "reasonable equivalent" does not include a job for which: (a) training in the program is not required; and (b) the entry level salary is less than 80% of the entry level salary of the job specified in the name of the program.

Total Placement Rate is defined as the product of the graduate placement rate and the graduation rate. This required definition may result in a total placement rate greater than 100% when the graduation rate, based on the definition in 940 CMR 31.03 is greater than 100%.
